## Additional Hawkeye Features

Additional features are included in your version of the Hawkeye utility software.  The Properties window in the Hawkeye utility software has the following additional property sheets added:

**Hawk keys**

On this property sheet, you can assign several of the Hawkeye functions to the function keys on your keyboard.  Next to the icon for each function, type in the function key you want to use for that function.  Click **Apply** to save your changes and continue.  Click **OK** to save your changes and close Hawkeye.  Click **Cancel** to discard your changes and close Hawkeye.

**Zoom**

On this property sheet you can assign the Zoom function to a function key on your keyboard.  With the Zoom function you can zoom in or out of your virtual workspace with your monitor display area.  Click **Apply** to save your changes and continue.  Click **OK** to save your changes and close Hawkeye.  Click **Cancel** to discard your changes and close Hawkeye.

**Place Windows**

On this property sheet you can assign the Place Windows function to a function key on your keyboard.  With the Place Windows function, you can maximize application windows to the size of your monitor display area.  You can also choose to have message and dialog boxes centered in either your virtual display area or your monitor display area.  Click **Apply** to save your changes and continue.  Click **OK** to save your changes and close Hawkeye.  Click **Cancel** to discard your changes and close Hawkeye.

**Stop Box**

On this property sheet you can assign the Stop Box function to a function key on your keyboard.  With the Stop Box function, you can set limits on your ability to pan to another section of the virtual workspace.  You can choose the color of the stop box on this property sheet.  You can also choose whether to limit panning vertically, horizontally, or in both directions.  Click **Apply** to save your changes and continue.  Click **OK** to save your changes and close Hawkeye.  Click **Cancel** to discard your changes and close Hawkeye.
