

Before doing anything else, be sure the following is included in the package:

- \* CM-1
- \* RGB Monitor-to-Computer Cable

1. POWER ON/OFF Switch. Press to turn the CM-1's power ON. Press again to turn the power OFF.
2. POWER ON Indicator. This illuminates when the CM-1's power is ON.
3. High Resolution Video Screen.
4. Control Box. Behind this panel are the Horizontal Centering, Contrast, and Bright rotary controls. Gently press the bottom of the panel to reveal these controls.
